Data Science Ambassadors - Call for Nominations

Seeking nominations for enthusiastic UArizona graduate and professional students for the Data Science Ambassadors program to support data science literacy at the University of Arizona. Data Science Ambassadors are champions for Data Science literacy

for all UArizona colleges! Nominations are due by May 1, 2022.

Nominate Data Science Ambassadors

Taking time to smell the...cookies and more!

Building the Data Science community is important. DSI staff, Data Science Fellows, and Data Science Ambassadors took a moment to share munchies at the potluck with the **Roots for Resilience** cohort.

Hiring student developers and data scientists!

The Data Science Institute is always looking to hire students with computational science and data science experience. This is the perfect opportunity for students who want to take their skills to the next level. Students can **email** a resume and a brief statement for why they'd like to work with the Data Science Institute.

Save-the-Date

APR
1-3

State of the Map US Conference

Held at UArizona, the SOTMUS conference will include talks, workshops, birds of a feather, mapping, and much more.

APR
7

Hacky Hour at Snakes & Lattes Tucson

Swing by Hacky Hour on Thursdays at 4:00. Get to know a friendly, diverse group of researchers and programmers from inside and outside the UArizona.

APR
22

WiDS Tucson Virtual Conference

The one-day technical conference will feature the latest data science related research and applications featuring speakers and

panelists from the Tucson Data Science community.

MAY
1

Deadline to nominate Data Science Ambassadors

Data Science Ambassadors are champions for Data Science literacy in your college! Remember to nominate your ambassador.

Looking for additional workshops, want to learn more about how DSI can help you, or interested in being part of the University of Arizona Data Science community? [Email DSI](#).

Land Acknowledgment

We respectfully acknowledge the University of Arizona is on the land and territories of Indigenous peoples. Today, Arizona is home to 22 federally recognized tribes, with Tucson being home to the O'odham and the Yaqui. Committed to diversity and inclusion, the University strives to build sustainable relationships with sovereign Native Nations and Indigenous communities through education offerings, partnerships, and community service.
